

## Economic Impact Validation and Attribution

The Minnesota SBDC is evaluated and funded based on the economic impact we help our clients create. This brief questionnaire requests that you report outcomes you created in your business with the help of the SBDC. The SBDC's assistance may have ranged from assisting with your business plan, reviewing your financials, marketing or market research, preparing a loan package, developing growth strategies, or in other ways. As always, your personal information will be treated as confidential, and this data will only be shared in aggregate as non-identifiable information.

Congratulations on your successes and thank you for letting us be a part of your growth!

Date: \_\_\_\_\_ SBDC Consultant(s): \_\_\_\_\_
